- Find a leaf to do a leaf rubbing.
- Find different colors and shapes of leaves.
- Talk with your child about a time they visited the dentist and the doctor. What did you see? How did you feel?
- Go outside and pick up acorns. Have your child practice counting them.
- While at the grocery store, practice counting the apples and pumpkins.
- Help your child draw a picture of what they like to do at school.
- Use your five senses to describe fall. What does ____ look like? taste like? sound like? feel like? smell like?
